**SUBJECT: RECOMMENDATION LETTER FOR CFE**

To Whom It May Concern:

Please accept this letter as my highest recommendation of the construction firm, Central Florida Equipment Rentals, Inc. (CFE). I have had the opportunity of managing work performed by CFE over the past 6 years through a variety of airfield construction projects valued at over \$32,550,000.

CFE has consistently demonstrated that it is professional and competent. The firm performed a number of difficult projects that included logistical and schedule challenges. CFE, to our great satisfaction, was able to surmount them. One of the best completed projects, by CFE, has been the construction of the high-speed exit taxiways where CFE managed to finish before time and earned an incentive placed by BCAD to reduce the impact of the closure of the main runway on the airlines and the community.

Additionally, safety has been regarded as top priority by all and has been evident at all times during our different construction phases. CFE has shown its ability to collaborate as team players and has been flexible in dealing with any on-site work issues. They earned our respect.

CFE understood, from the beginning, that it takes highly qualified personnel to maintain good relationships. As a result, it provided capable and competent staff members who stay involved and accessible throughout a project.

Central Florida Equipment Rentals, Inc. is truly a firm that we recommend without reservations and surely hope to continue to work with in the future.

Sincerely,

A handwritten signature in blue ink that reads "Gasser Dougé".
